February 2021 COVID-19 Announcement

In a continued effort to ensure club members safety, PRGC will extend our current restrictions regarding access and use of club properties...Our focus is to continue to protect the health and well-being of our membership, with the State's continued targeting on the need to restrict gatherings; we have made the decision to limit club access/ activities to Members and their immediate families.

Until further notice, PRGC will follow these guidelines to limit any exposure to potential outside influences on our club.

The club access will continue to remain open and transparent for the members.

We are looking at means that will permit virtual meeting access for all members. Although not the solution we desire, it will allow us to communicate and maintain involvement with our club members.

Please continue to monitor the club's website for additional information as it changes.
